

HOW TO USE THIS LIST

Use the *exact Model* in the following pages to see if your device is supported (Open your device's **Settings**, tap **General**, tap **About**- scroll down to find the **Model**)

You can also check the compatibility of your device's IMEI [here](#)

There are many versions of the same phone, and each version has its own model number even when the marketing name is the same.

➤ **EXAMPLE:**

- Galaxy S20 models G981U and G981U1 *will work* on the AT&T network
- Galaxy S20 models G981N and G981O *will NOT work*

Software Update: If you have one of the devices needing a software upgrade check to make sure you have the latest device software.

[Update your phone or device software eSupport Article](#)

Models listed here are not guaranteed to work on the AT&T network. AT&T cannot guarantee the capabilities or performance of any individual device.

How to determine your device's model

For iPhones®

1. Go to **Settings**.
2. Tap **General**.
3. Tap **About** to view the model name and number.

For Androids®

1. Go to **Settings**. You may have to go into the **System** menu next.
2. Tap **About Phone** or **About Device** to view the model name and number.

Other phones

1. Go to **Settings**.
2. Tap **About Phone** to view the model name and number.

OR

1. Remove the back cover.
2. Remove the battery.
3. Look for the model number on the inside of the phone, usually on a white label.

These phones are tested and approved for the AT&T network
